

About KAIT:

Knowledge AI Inc., a Boston based award winning ed-tech company with global presence (US, Europe, Asia and the Middle East), is seeking an experienced and passionate educator to join our team as an Education Specialist/Product Manager to help drive the development of our product as well as create high-quality mathematical content for students in K-12.

KAIT Solutions, our software platform is a revolutionary software increasing efficiency in education by introducing artificial intelligence (AI) into conventional classroom teaching. We are fundamentally changing the way we teach and learn by introducing tools that will allow teachers to be able to feasibly use formative assessments and feedback loops in a time efficient manner. Our ultimate goal is to change everything about education without changing anything-- just add a pinch of tech.

As an Education Specialist, you will collaborate with software engineers, data scientists, and researchers to design "user-friendly software." Your creative problem solving, educational insights, and commitment to bettering education for all, will help make individualized learning a reality for students around the world.

This is a full-time position in our Boston, MA office. Strong candidates with other locations in the US will also be considered.

What you will be doing:

- Design and write high-quality mathematical content.
- Work with the Engineering team to make the product more teacher-friendly.
- Collaborate with software engineers, data scientists, company leaders, and researchers to refine our products.

What we are looking for:

- Master's degree in Education or in Mathematics. Ph.D. and graduate degree from an Education School are a plus.
- 5-10 year prior work experience.
- 6-12 grade math teaching experience.
- Experience in curriculum development and instructional design.
- Self-motivated and attention to detail.
- And most importantly, a passion to change the world through education!
